GENERAL GUIDELINES AND RECOMMENDATIONS

PREPARATION RECOMMENDATIONS:

- Plan your presentation carefully
- Co-ordinate each phase of your lecture with your PowerPoint™ slides
- Number the sheets at the bottom of the page, and have them in the correct order and position
- Avoid unfamiliar abbreviations or expressions
- Your copy should be highly legible (ALL CAPITALS, for instance) double or triple-spaced, with well-marked cues for slides
- For PowerPoint™ slides, a coloured background usually works better than black and white. However, colours should be kept limited and simple
- Optimise the visual simplicity of your slides – use few words and avoid sentences
- Try not to use more than 6 bullet points per slide
- Leave out text you do not plan to discuss
- Use several slides to cover a detailed topic that cannot be logically included on one slide
- If you must refer to one slide on several occasions during your presentation, use duplicates instead of trying to return to the original
- To coin a phrase, graphs often speak louder than words

THREE EFFECTIVE PRESENTATION RULES:

1. Introduce your topic and inform your audience what you intend to speak about
2. Deliver your talk, including the methods, results and conclusions
3. Summarise for your audience the most important points of your lecture

Note: *The sessions will not have any simultaneous interpretation. Please be aware that some participants may not speak your language as their mother tongue. For that purpose, please remember to speak slowly and clearly.*

DELIVERY TIPS:

- Bring a text prepared specifically for the oral presentation
- Find time before sessions begin and acquaint yourself with the operation of the podium and location of the equipment. Conference staff will be present to assist you
- Give the technician any special instructions you may have before, not during the talk
- Be careful to speak in accordance with your slide sequence, discuss the material as written on the slide
- Use a laser pointer to guide the audience. Do not wave the pointer around the slide
- Remember to speak slowly and clearly
- Please stay within the time limit allocated for your presentation

Note: *Sessions are programmed for 60 - 90 minutes, divided by the presenters, allowing time for discussion. We strongly urge you to allow time for questions and comments*

MODERATOR GUIDELINES

Please locate your session room in due time and be there **at least 10 minutes prior to the start of the session.**

It is the moderator's responsibility to **start the session on time and that overall session time is kept** (no extension!). This is of the utmost importance to respect the programme schedule.

Should a speaker not arrive for their presentation, please fill in the additional time with discussion or take a temporary adjournment and continue with the next presentation at the scheduled time advertised in the [programme](#).

All presentations should be in English. Please make sure to speak slowly and clearly to help those who are not English native speakers.

There are microphones on the tables in each session room to facilitate the discussion. Please ask the audience to use them so that everyone can hear the questions.

At the beginning of the session, please **kindly ask the audience to turn off all mobile phones** and pagers.

For safety and security reasons, no-one will be allowed to stand in the back of the rooms.
