

Pfizer-sponsored symposium at the European Association for Haemophilia and Allied Disorders (EAHAD) congress 2026

Agenda

4th February 2026 | 13:00–14:00 GMT | Dublin, Ireland

Advancing haemophilia care through lived experiences: exploring anti-TFPI approaches

Session objectives:

- By the end of this symposium, participants will be able to:
 - Identify unmet needs in contemporary haemophilia care and explore how use of innovative therapies, including anti-TFPI therapies, may address them
 - Explore patient preference evidence to understand key factors influencing treatment choices and adherence in haemophilia
 - Apply clinical evidence, lived experiences and perspectives of people living with haemophilia to optimise individualised, patient-centred management strategies in practice

Agenda:

| Time (GMT) | Presentation | Speaker |
|------------|---|--|
| 13:00 | Welcome and introduction | Pratima Chowdary <i>Chair</i> |
| 13:05 | Contemporary unmet needs in haemophilia care: clinical considerations | Mary Kavanagh |
| 13:15 | Navigating patient preferences and priorities in haemophilia care | Pratima Chowdary |
| 13:25 | Anti-TFPI therapies: emerging evidence from clinical trials | Robert Klamroth |
| 13:45 | Transforming evidence into experience: leveraging real-world insights | All faculty, moderated by Pratima Chowdary |
| 13:55 | Q&A and meeting close | Pratima Chowdary <i>Chair</i> |
